

Candles

Safety tips:

- Always keep a burning candle within sight. Extinguish all candles when leaving a room or before going to sleep.
- Make sure a candle is completely extinguished and the wick is no longer glowing before leaving the room.
- Use candle holders that are sturdy, and won't tip over easily and put candle holders on a sturdy, uncluttered surface.
- Keep candles out of the reach of children and pets.
- Keep candles at least 12 inches away from anything that can burn.
- Don't burn a candle all the way down — put it out before it gets too close to the holder.
- Never touch or move a burning candle when the wax is liquid.
- Place burning candles at least three inches apart.
- Never use a candle as a night light.
